

# **Allweld** Marine & Industrial

*"The Best in the Weld"*

## **FABRICATION SERVICES**

Allweld has been doing fabrication for fifty years and are well known in the industry for special fabrications like pressure vessels, complicated structures and where machining and heat treatment is required.

Allweld also fabricates in special metals like S/Steel, Aluminium, Titanium, Copper and Bronze. A lot of the work is done on our premises in Cape Town and then transported and installed onsite. Allweld has dedicated teams of Project Managers, Riggers, Fitters, Metal workers and Welders that do the work on site.

Our fabrication conforms to the highest international standards.

We have a vast amount of qualified welding procedures that enables us to work on different thickness and a wide range of different materials.

Allweld's fabrication department is known for its work on closures that require strict turnaround times for completion of projects and not forgetting Quality and Safety.
